

# LAKESHORE BULLETIN

## APRIL 2025

### Resident Highlights

Due to an increase in unwanted wildlife and rodent destruction, residents will only be permitted to feed birds using a hanging suet cake or suet pellets in a feeder. Each resident can utilize one double shepherds hook for flowers, humming bird feeders, or suet feeders. No loose seed will be permitted or any items attached to the outside of windows. Thank you all for your help in this matter. Attached are some March highlights.
